

Otsuka Group Sustainable Procurement Guidelines

The Otsuka group of companies promote activities proactively for the realization of sustainable societies. This is exemplified by Otsuka Holdings' signing of the United Nations (UN) Global Compact in 2016.

The Otsuka group adheres to the *Ten Principles* of the UN Global Compact* and aims to contribute to the solution of social issues through business activities, supporting our ongoing and enduring perspective on the Sustainable Development Goals (SDGs). Our adherence to the *Ten Principles* extends to procurement, as we advance with our suppliers.

It is essential to collaborate with suppliers to maintain supply chains that considers quality, safety, supply stability, because the creation of innovative products requires flawless information exchanges and excellent working relationships. However, no less important are sustainable criteria that include human rights, labor standards, preservation of the environment, non-tolerance of corruption, and information security.

Based on the concept described above, the Otsuka group created the Otsuka Group Sustainable Procurement Guidelines. We ask all suppliers and companies located upstream in our supply chains to understand the importance of these guidelines and observe each part of them.

Also, as a Corporate responsibility, the Otsuka group established the Otsuka Group Global Code of Business Ethics*, the Otsuka Group Global Anti-Corruption Policy, the Environmental Policy*, the Privacy Policy*, etc. We appreciate and expect your understanding of, and adherence to, those policies.

I. Quality, Safety, and Stable Supply

We require observance of the following items in the quality policy of the Otsuka group of companies:

1. Supply of products that meet required quality and safety
2. Information on supply stability, such as production capacity and track record, as required
3. Stable business management
4. An up-to-date business continuity plan in case of extreme weather, natural disasters, pandemics, etc..
