

Fiscal Year through March 2009 – Consolidated Results

I. Consolidated results for year ended March 2009 (April 1, 2008 to March 31, 2009)

1) Operating results (JPY million)

	2009	<i>Reference *</i>
Net sales	955,947	928,480
Operating income	91,520	118,254
Ordinary income	96,103	124,125
Net income	47,083	61,865

2) Financial position (JPY million)

	2009	<i>Reference *</i>
Total assets	1,298,789	1,033,976
Net assets	863,815	731,782
Equity ratio	62.3%	48.6%
Net assets per share	36,005. ²⁶	38,132. ³⁶

Net assets per share: JPY

3) Statement of cash flow (JPY million)

	2009	<i>Reference *</i>
Cash flow from operating activities	58,470	117,248
Cash flow from investing activities	(213,610)	(75,483)
Cash flow from financing activities	172,196	(16,209)
Cash and cash equivalents at end of year	230,104	222,647

4) Expenditures (JPY million)

	2009	<i>Reference *</i>
Research and development expenditure	135,900	101,804

*Reference**: Consolidated results of Otsuka Pharmaceutical Co., Ltd. for year ended March 2008

5) Scope of consolidation

Consolidated subsidiaries: 65

Companies accounted for under the equity method: 12

6) Changes in scope of consolidation

Newly consolidated subsidiaries, including:

- Otsuka Pharmaceutical Co., Ltd.
- Otsuka Chemical Holdings Co., Ltd.
- Otsuka Chemical Co., Ltd.
- Otsuka Foods Co., Ltd.
- Nutrition & Santé SAS
- and 16 other companies

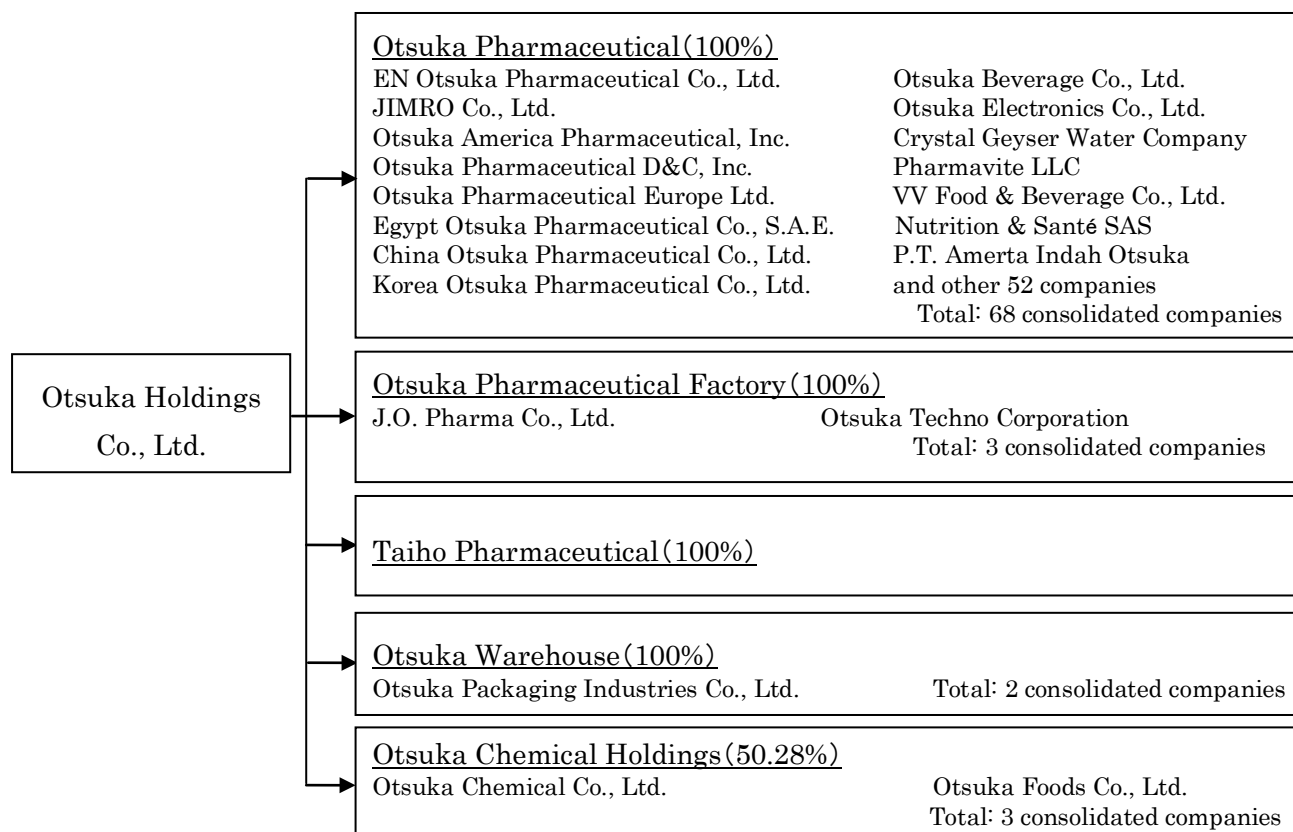

Newly consolidated affiliate accounted for under the equity method:

ALMA S.A.

Change from equity method of consolidation to full consolidation:

Otsuka Chemical Holdings Co., Ltd.

II. Number of consolidated companies: 78 (including Otsuka Holdings Co., Ltd.)

III. Overview of year ended March 2009

	2009	(JPY billion) <i>Reference *</i>
Sales	955.9	928.4
Domestic*	613.6	570.8
International**	342.3	357.5
Ordinary income	96.1	124.1
Net income	47.0	61.8

* Sales by parent company and its subsidiaries in Japan

** Sales by overseas subsidiaries

*Reference**: Consolidated results of Otsuka Pharmaceutical Co., Ltd. for year ended March 2008

Otsuka Holdings Co., Ltd. was established on July 8, 2008 as a group holding company with the aim of enhancing the value of the Otsuka Group.

The current consolidated fiscal year has seen the spread of financial instability resulting from problems with the U.S. sub-prime mortgage market, leading to a dramatic slowdown in the global economy. In spite of monetary policy changes aimed at market stabilization enforced by governments around the world, the global economic downturn continues and the situation remains unpredictable. In Japan, in addition to a slowing economy brought about by the financial crisis, factors such as fluctuations in the value of the yen have had a negative impact on corporate earnings, and a sense of uncertainty about the future has weakened consumer spending.

In the pharmaceuticals industry, global strategies are driving the trend toward mergers, acquisitions, and alliances among major corporations, which is having a growing impact on corporate earnings. In Japan, reimbursement prices were cut by an industry average of 5.2% last fiscal year, and market competition remains fierce due to factors such as the promotion of generic drugs and increasing domestic competition from overseas pharmaceutical manufacturers.

The Otsuka group of companies continues to focus on pharmaceutical research and development to address unmet medical needs, endeavoring to build an organization which can provide high quality pharmaceutical products and related information to people around the world.

Meanwhile, due to the lackluster economy, spending on consumer products has declined significantly in the past few months, and leading Japanese companies are struggling to keep pace with the accelerating pace of globalization, which includes aggressive capital participation in overseas companies.

In this environment, the Otsuka group focuses on offering products that satisfy consumer needs, developing environmentally conscious products, building robust brands, and aggressively investing to increase the pace of global development.

These efforts resulted in consolidated Group sales for the fiscal year of ¥955,947million, ordinary income of ¥96,193 million, and net income of ¥47,083 million.

IV. Financial results by segment

Pharmaceuticals business

	2009	(JPY billion)
Sales	676.7	<i>Reference *</i> 640.2

*Reference**: Consolidated results of Otsuka Pharmaceutical Co., Ltd. for year ended March 2008

In the area of pharmaceuticals, Otsuka Pharmaceutical achieved favorable results with core products anti-platelet agent *Pletal*, anti-gastritis and anti-gastric ulcer agent *Mucosta* and anti-psychotic agent *ABILIFY*. *Pletal* was launched in Sweden, France and Italy, and is expanding its market in Europe. *Mucosta* continues to perform well both in Japan and across Asia. *ABILIFY* has already been approved for sale in over 70 countries worldwide, and has been accepted as an atypical antipsychotic with a new mechanism of action. In the US and Europe, additional indications have led to stronger sales with global sales growing by around 8.5%. In Japan, sales have expanded along with the dissemination of information about the drug's proper use, and the new formulation *ABILIFY Oral Solution 0.1%* was approved in January 2009. In June 2008, UCB and Otsuka Pharmaceutical signed an agreement to co-develop and co-promote the anti-epileptic drug *Keppra*, and the anti-TNF alpha drug *Cimzia* in Japan.

Taiho Pharmaceutical Co., Ltd. achieved steady sales of its anticancer agent *TS-1* through the active supply of information. The addition of a smaller tablet form to existing dosage forms of reduced folic acid formulation *UZEL* stimulated sales, while the unique action mechanism of the anticancer agent *PROTECADIN* supported the product's positive performance. The antibiotic injection *ZOCYN*, containing the antibiotic API *tazobactam* licensed to Wyeth Pharmaceuticals, is sold in 94 countries worldwide, and in October 2008, Taisho Toyama Pharmaceutical Co., Ltd. began marketing the product in Japan, contributing to increased sales.

In the field of clinical nutrition, the launch of large-size versions of Otsuka Pharmaceutical Factory's high-calorie infusions *Neoparen No. 1* and *Neoparen No. 2*, containing glucose, electrolytes, amino acids and vitamins, helped sustain healthy sales. *BFLUID*, an intravenous solution containing Vitamin B1, glucose and electrolytes, and the liquid enteral nutrition formula *Racol* continued to perform well. In May 2008, Otsuka Pharmaceutical Factory released *ARTCEREB Irrigation and Perfusion Solution for Cerebrospinal Surgery*, the first such product certified for its efficacy/effectiveness in Japan, which is being steadily prescribed by neurosurgeon-approved training facilities and other institutions.

Consumer products business

	2009	(JPY billion)
Sales	249.1	<i>Reference *</i>
		258.6

*Reference**: Consolidated results of Otsuka Pharmaceutical Co., Ltd. for year ended March 2008

Otsuka Pharmaceutical's nutritional *SOYJOY* fruit soy bar has been developed as a global product and is currently sold in seven countries and regions worldwide. In Japan, the addition of new varieties and aggressive marketing activities have fuelled sales growth. In April 2008, the construction of a second *SOYJOY* factory in Japan was completed at the Itano Factory. And at the same time *SOYJOY Strawberry* was released, followed in October by the launch of *SOYJOY Orange Folic Acid Plus*, further expanding the lineup.

Pocari Sweat has been lauded for its environmentally friendly 500ml PET "ecobottle" amid a generally heightened environmental consciousness, and the sponsorship of both the G8 Hokkaido Toyako Summit and the 4th Tokyo International Conference on African Development (TICAD IV) has aided in further strengthening the brand. *Pocari Sweat* continues to perform well overseas, selling 380 million bottles annually in Indonesia.

In the Cosmetics (Cosmetic + Medicine) business, based on the theme of "Healthy Skin", the Men's skin care brand *UL-OS* was launched in September of 2009 with the aim of creating a new market in the men's skin care segment. In addition, sales of the *InnerSignal* skin care brand have grown significantly with the introduction of new formulation and sales techniques that emphasize consultation.

For *Crystal Geyser*, imported and marketed by Otsuka Beverage Co., Ltd., the focus has been on strengthening the brand and marketing personal sized containers of the product, ensuring its position as Japan's second highest selling imported mineral water.

V. Research and development overview

Our global network is utilized for pharmaceutical development in our aim to satisfy unmet medical needs worldwide, conducting research and developing ethical drugs with a focus on the central nervous system, oncology and the cardiovascular system.

(Please see attached separate sheet for pipeline information)

In the area of consumer products, we continue to develop products under the concept of "Nutraceuticals" to support daily health based on scientifically proven concepts in the areas of sports, nutrition and health.

Consolidated statement of income
